

You're Invited to Experience the Evolution of Food at Universal Orlando Resort

For the past 29 years, food across Universal Orlando Resort has evolved from traditional theme park meals to next-level cuisine. Our award-winning culinary team continues to elevate guests' dining experiences by partnering with our world-class creative team. From original dining concepts like our newest restaurant inspired by open-fire cooking, Bigfire, to highly-themed environments like The Wizarding World of Harry Potter, where guests can sip on their very own Butterbeer – food across the destination is an attraction in and of itself.
